Subject: Request for Empanelment of National Cancer Institute, Nagpur

Respected Sir,

Cancer, a disease, is a major health hazard and a scourge for mankind. Significant scientific advances have been made of this disease and its treatment. As a result, an increasing number of cancer patients are being cured and living longer.

In this direction, National Cancer Institute, Nagpur is one of the largest and renowned cancer hospital of India which brings India's best cancer experts together. Comprehensive Cancer Treatment, Patient Care and Research are its key features. Nagpur being the medical hub of central India is also accessible point of travel from across the country for our ONGC employees & family. It has also come to our knowledge that, ONGC has also funded Rs. 300 Cr to National Cancer Institute, Nagpur under its CSR initiative.

It is therefore suggested that National Cancer Institute, Nagpur should be added in the ONGC empaneled hospitals. It is also suggested that after the empanelment, all employees may also be notified about the empanelment so that employees can make use of the much needed facility of this hospital.

As a part of continuous system improvement for all of its employees, this may be taken up on priority, please.

With Kind Regards,

S K Srivastava
